Arash

Predicates

Hvorfor er de nyttige?

Usage/Implementation

Alternative Implementation

Evaluation

Hvordan evaluerede vi
SkiRaff?

Alternativer

Konklusion

Hvad vil vi?

- ▶ Vi vil lave et framework som kan hjælpe ETL programmører med at teste deres systemer

Problem

SkiRaff an ETL Testing
Framework for
pygrameitl

Alexander Branborg,
Arash Michael Sami
Kjær,
Mathias Claus Jensen,
Mikael Vind Mikkelsen

Det nuværende marked

Det nuværende marked

- ▶ Table comparisons
 - ▶ e.g. AnyDBTest
 - ▶ Pro: Folk kan lave assertions omkring stort set alt
 - ▶ Con: Kræver meget kodning, hvor man nemt kan lave fejl
- ▶ GUI baseret testing
 - ▶ e.g. QuerySurge
 - ▶ Pro: Kræver ikke meget kode
 - ▶ Con: GUI baseret og kan hurtigt blive kompleks.

Problem

SkiRaff an ETL Testing
